

ACTIVE WITH EVERY FIBRE

WASHING INSTRUCTION

Instruction:

HEY SPORT IMPRA WASH IN should be filled into the fabric softener compartment or into the compartment for the waterproofer. This compartment should thoroughly be cleaned beforehand. You can use IMPRA WASH-IN together with a suitable detergent from HEY SPORT. Dosage as in the chart below indicated. Shake the bottle well before using. Do not use an additional softener. Alternatively, the waterproofer can also be used effectively by hand wash. Textiles with low speed only spin-dry briefly. Subsequent heat supply as generated through the dryer or through iron significantly increases the feature of being waterproof. Absolutely read the care instructions of the textile manufacturer before.

	1 kg 40 ml	2 kg 60 ml	3 kg 80 ml
